

 www.rustins.co.uk	PRODUCT DATA SHEET
Product	Grainfiller
Type	Paste consisting of various fillers and pigments dispersed in an oleo-resinous medium.
Intended Use	To fill the grain of all types of wood.
Special Features	Variable particle size for exact filling, irrespective of the type of wood to which it is applied.
Preparation	Wood that is to be filled should be cleaned with White Spirit and fine wire wool to ensure that it is free from grease and wax.
Application	Thin with White Spirit to a thin cream consistency and rub hard across the surface of the wood with a piece of coarse cloth. After a short while, remove the surplus filler with a cloth. It is important that no residue is left on the surface, as it would set very hard and could only be removed by sanding.
Drying Time	5-6 hours
Re-coating Time	Leave 12 hours before rubbing back.
Application Temp.	Use in a warm, dry atmosphere, ideally 15- 25 degC
Maintenance	Wipe with damp cloth. Greasy or dirty surfaces should be cleaned with a mild non abrasive liquid detergent. Avoid using harsh cleaning agents. Wax polishes may be used.
Compatibility	Rustins Wood Dyes may be used to thin the filler instead of white spirit, so that staining and filling can be carried out in one operation.
Settlement	This product does not settle.
Shelf-life/Storage	The shelf life of the product in an airtight container is indefinite. It is preferable to store the product in a cool place. It is important to replace the lid and ensure an airtight seal.
Hazards	Highly Flammable. Harmful by inhalation, in contact with skin and if swallowed. Keep out of reach of children. Keep container tightly closed. Keep away from sources of ignition-No smoking. Do not breathe vapour. Avoid contact with skin and eyes. In case of accident or if you feel unwell, seek medical advice immediately, (show the label where possible)
Clean-Up	All equipment must be cleaned whilst wet with White Spirit.
Sizes	230gm tins
